

*Lucas Lifestyle*

**Now and Tomorrow**

Early Voting:

April 20 – May 3

8 a.m. to 5 p.m.

Lucas City Hall

**Roger Behymer**  
Candidate for  
**Lucas City Council**

Dear Voter and Fellow Citizen:

I would like to introduce myself and tell you why I am running for a seat on the **City Council for the City of Lucas**. My wife (ten years), Angela, and I moved to Trailside Estates from Plano less than two years ago after discovering the peaceful environment that *Lucas Living* provides. We have not regretted this decision and feel compelled to serve this community in such a way as to preserve those qualities that attracted our attention and apparently that of many others. As time goes by, it is apparent many others desire this same lifestyle that we do not want to see changed or destroyed by unplanned growth.

The future holds opportunity to keep Lucas the **unique “country” community** that it is now and has been for so long. And to let growth occur for the City in such a way as to maintain the open spaces, the “farm” feel that welcomes those who love horses and other animals as part of their life. It also welcomes those who just love those open spaces and looking at the stars at night. **As a councilman, I would like to see the city able to maintain the clean, open environment that exists now.**

I feel that Lucas has more to offer to its citizens than to just become **another Allen or Plano**. Those communities are fine neighbors, but we have chosen to live in this community because it *is* a different style of living. Let’s keep the *Lucas Lifestyle* as unique in the future as it is today while welcoming the right kind of growth that will enhance this *lifestyle*.

While working in the technology industry for the last 8 years, I have managed many extensive projects for various companies, and I see change and the lack of good change as well. I graduated from Southeastern Oklahoma State University with a Bachelor’s Degree in Computer Science. I completed Project Management Training at SMU and am currently the director of Technology for CTS Systems. I truly would like to further use this experience and training to bring good decision-making for the future of all LUCAS residents.

***I solicit your support and, most of all, your vote on or by Election Day, May 7, 2005.** The early voting dates are stated in the top margin of this profile. I thank you for taking your time to read this and allow me to introduce myself. I love being your neighbor, and feel we have mutual interest and goals for the future of Lucas.*
