SAMPLE BALLOT
School Board Position 4

Julie James

I chose to run for the Board of Trustees because of my involvement in our community and the leadership abilities I have developed through my participation in the PTA, serving on various Boards within the district, leading 2 Girl Scout troops, and participating in many community, neighborhood and church activities. Also, since I have had children attending schools in the district for the past 9 years, I have a good sense of how this district has progressed from a one school district to a five school district this coming Fall. Our family, like many others, has experienced many changes over the years including half day versus full day Kindergarten, boundaries being redrawn with the addition of new schools, portable buildings for classrooms, the issues regarding safe movement of students between portables and the main building and attending the high school facility as a 7th grader.

I believe that we have had a School Board that has been dedicated to serving our community's greatest asset, **our children**. It would be a great honor to be elected and serve this community to help ensure that our children continue to flourish academically and personally in a changing environment.

* **Excellent Communicator**

* **Dedicated to LISD**

* **Fiscally Responsible**

* **Advanced Visionary**

* **Ambassador for all Children**
